

## Taken It All

Zoot Woman

I just can't get with you  
I just can't get with you

Can't you see  
You've taken the soul from me  
I can see  
I've been lost on the way

I just can't get with you  
There's nothing left  
Just a view we cannot share

Always thought there'd be  
A way for me and you

Can't you see  
You're something less to me  
Never free  
I'll watch you move away

Can't you see  
You've taken the soul from me  
Should have seen  
You'd take it out of me  
You've taken it all from me
