

Don't Believe In Love

Zox

We're the last ones awake
Like lovers on a sinking ship
We float in the yard all night
And when the light hit the window
You said I made you feel safe
I wanted to cry

I know what you want from me
Baby I am trying to believe
Must me something wrong with me
I don't believe in love
I don't believe in love

We drove into town
Just to have something to do
And drank till I knew you'd drive me home
You caught my eye in the mirror and said
Happiness is a place like this
I wanted to cry

I know what you want from me
Baby I am trying to believe
Must me something wrong with me
I don't believe in love
I don't believe in love
