

## The Vast Expanse

Zozobra

Life here is air  
Still far too cold to breathe  
Helpless being  
Swimming so endlessly  
Dreaming of suns  
Melting this mile of ice  
What was once ours  
In arctic and darker nights  
Now is frozen still  
Like a falling star  
Will it warm again?  
Lifeless dead hearts  
Sink into my skin  
And lift me up to god again
