Don't look at me
Like that
You've got me in your palm
I'm lying down

ref: This is my honouring to you
This is my honouring to you

I won't disappear
Only in your lap
Vitreous
Eyes of the roe confused

This is my honouring to you
This is my honouring to you
This is my giving me to you

You already govern your ruler
You already govern your ruler

I'm quite alone and yours
I'm quite alone and yours
Stroke me, stroke

I'm quite alone and yours
Don't drop me
We'll cry together for mine
Pee into a shared pipe

This is my honouring to you
This is my honouring to you

I won't disappear
Only in your lap
Vitreous
Eyes of the roe confused

Please, want me
Please, don't want your own
