

Business as Usual

ZSK

Economic interests, religion, patriotism and fucking
greed

Day by day help to make the battlefields turn red

A vicious circle with no winners just losers.

When will we stop this useless killing?

No War, No Hatred

No support for the arms traffic

And the profits that they make

No War, No Nation

No support for governments

And the bribes that they take

Greedy politicians supporting dictatorships, subverting
democracy, worldwide

This is their theory of a self-fulfilling prophecy

Arms supply and weapons of mass destruction

The never-ending chain reaction
