

Fight for More

ZSK

In this society the opportunity to use your right free
speech

Now an then is getting lost in clouds of teargas
Is this the kind of government you are looking for?
Just close eyes but the injustice won't fade out
Get a move on
If that's what your democracy looks like...

We have got to move on
It is a tragedy, of this 'democracy'
The goal: a positive change your answer is a punch in my
face
Faced by unscrupulous cops beating us up, putting us in
prison
We have to cut our losses. Fight back and that is our
protest
But oppression breeds resistance and resistance is what we
need
Despite police brutality we will defend our right to
speak
We have got to fight for more
