

## Fire

## Zug Izland

I break the melted popsicle sticks and start the show  
Push me in the fire, as you punish my soul  
I thought it was funny when the hungry would break  
Blew off every miracle I saw as a fake  
Show me something positive, I'll show you its flaw  
Try to preach your ministry, I'll shatter your jaw  
Try bringing the heat, I feel the heat on my face  
Don't you start me off with a taste of the ogre's...

Fire, baby!  
Don't you know who we are?  
Fire baby!  
Bye, bye, bye, bye, boy!  
Fire, baby!  
Don't you know where you are?  
Fire, baby!  
Bye, bye, bye, bye, boy!

Tighter than a snake can wrap itself 'round your neck  
Watch preying mantis eat a hole in your back  
You can see the stories so he created the truth  
So much goes invisible, seen only by you  
You can see me 'cause when you stare at the sun  
All i did to figure out, but who makes it run?  
Steady pushin' barrel to the back of my head  
Anything to keep the ogre happy is enough for me

Fire, baby!  
Don't you know who we are?  
Fire baby!  
Bye, bye, bye, bye, boy!  
Fire, baby!  
Don't you know where you are?  
Fire, baby!  
Bye, bye, bye, bye, boy!

I remember hearing all you voodoo doctors pray for rivers  
Hours later comes the thunder  
Raining showers he delivers  
Pheasants fighting through the rain  
They're happy that it's finally falling  
Tried and true  
He's there for you again  
But you don't here him calling  
Pause your life for mischief  
And the mischief becomes life itself  
Before you know it  
Skin is wrinkled  
Teeth are falling like your health  
And what to do?  
And where to turn?  
And who to blame?  
And where to go?  
You feel the demons pulling at your body  
You might as well let go

Fire, baby!

Don't you know who we are?  
Fire baby!  
Bye, bye, bye, bye, boy!  
Fire, baby!  
Don't you know where you are?  
Fire, baby!  
Bye, bye, bye, bye, boy!  
Fire, baby!  
Don't you know who we are?  
Fire baby!  
Bye, bye, bye, bye, boy!  
Fire, baby!  
Don't you know where you are?  
Fire, baby!  
Bye, bye, bye, bye, boy!
