

We Should Be Swimming

Zulu Winter

Oh me oh my
how large a desire
to run from the streets - in only our sheets
kicking our shoes off - in the heat
I would watch a bead of sweat drip down
tracing the curves of you

Because we should be swimming
Going on into the night as if we were different
We Should be swimming
Oh we should be swimming
Going on into the night as if we were different
We should be swimming

Oh me oh my
i'm feverish with this life
stumbling through hoops tripping over these loops

I look to you for some release
boozing so hard i squeeze

Because we should be swimming
Going on into the night as if we were different
We Should be swimming
Oh we should be swimming
Going on into the night as if we were different
We should be swimming

Hold your breath
float down to this sea bed
then we'll see how long we can sleep
(4x)

Because we should be swimming
Going on into the night as if we were different
We Should be swimming
Oh we should be swimming
Going on into the night as if we were different
We should be swimming
