Yeah Yeah Yeah I gave you everything What'd ya give to me? A pocket full of empty rings With diamonds that can sing The most that I could ever hope Is that you'd start to feel so real. Yeah Yeah Yeah What I want is what you want But what I want is more I'm tired of the questions Am I left in scorn? The drugs are my addiction She's laying on the tiles of my floor. Yeah Yeah Yeah 'Cause you are (you are) My fault (my fault) As you are (you are) My own And you built (you built) My will But what I want, you can't fucking kill. Yeah Yeah Yeah Everyone is not as one Everyone's the same Their asking for a moment Or looking out to blame So am I independent? Or am I just playing my own games? Yeah Yeah Yeah 'Cause you are (you are) My fault (my fault) As you are (you are) My own And you built (you built) My guilt

But when I can, you just never will

Yeah Yeah

Yeah

Yeah Yeah

Yeah

'Cause you are (you are)
My fault (my fault)
You are (you are)
My own
It's your will (your will)
And my guilt.

Yeah Yeah Yeah.
