

Goin' So Good

ZZ Top

Just when I had the money to spend
And I was always thinkin' it would never end
Then the time came, to the end of the game
Don't you know?

And just when the sky got shiny and bright
There never seemed to be an end of the light
But then the clouds came, it started to rain
Don't you know?

Just when it was goin'
Just when it was goin' so good
Just when it...
Just when it was goin' so good

Just when the highway straightend out for a mile
An' I was thinkin' I just cruise for a while
A fork in the road brought a new episode
Don't you know?

Just when it,
Just when it was goin' so good
Just when it was goin'
Just when it was goin' so good

But baby don't you worry
I said baby don't you cry
We're gonna get it together
And I know you're askin' why

Just when it,
Just when it was goin' so good
Just when it was goin'
Just when it was goin' so good
