

## Lizard Life

ZZ Top

I got the attitude  
And that's all I ever say  
Don't have to tell nobody  
How their tail ought to lay

Had a sudden revelation  
The heights that I've sunken down to  
And I don't mind I can't find  
My way out of this witch's brew

Livin' for the lizard life  
Livin' for the lizard life  
I stumbled on the way around  
My own reality

Gettin' right-tightly wound  
Past the pale of normality  
I like big loungin' every day  
On the iguana side of town

The lizard love, it mighty deep  
Talkin' way underground

Livin' for the lizard life  
Livin' for the lizard life  
Livin' for the lizard life  
Livin' for the lizard life

I be a reptile all day  
And it's so fine  
Ain't no other way  
Like a life minus mind

I prefer reclinin'  
Beatin' that conga drum  
And waitin' for a three-point landin'  
On my sticky tongue

Livin' for the lizard life  
Livin' for the lizard life  
Livin' for the lizard life  
I'm livin with a lizard life
