## **Lizard Life**

I got the attitude And that's all I ever say Don't have to tell nobody How their tail ought to lay

Had a sudden revelation The heights that I've sunken down to And I don't mind I can't find My way out of this witch's brew

Livin' for the lizard life Livin' for the lizard life I stumbled on the way around My own reality

Gettin' right-tightly wound Past the pale of normality I like big loungin' every day On the iguana side of town

The lizard love, it mighty deep Talkin' way underground

Livin' for the lizard life Livin' for the lizard life Livin' for the lizard life Livin' for the lizard life

I be a reptile all day And it's so fine Ain't no other way Like a life minus mind

I prefer reclinin' Beatin' that conga drum And waitin' for a three-point landin' On my sticky tongue

Livin' for the lizard life Livin' for the lizard life Livin' for the lizard life I'm livin with a lizard life
